MORE LABORERS GO OUT BUT MILL RUNS PASSENGERS ON NEW FREIGHT STEAMER NEW LINER FOR PASSENGERS WAIPAHU MEN QUIT TODAY DR. COFER HEAD OF DIVISION

Percy Morse, agent of the American-Hawaiian steamship line, received official advice by the Mongolian mail that the company was negotiating for the construction of three new steamships. One of these is specially designed for the Honolulu-San Francisco trade and will have accommodations for at least twenty-five passengers. It is believed that the contracts for these steamships have been let by this time. The steamer to be built for this run is to be of 8,500 tons capacity—about half again as large as the Nebaguan and Nevada.

Mr. Morse has been very active in his efforts to have the company recognize the passenger service of the port and may be expected to voice the sentiment of the community that the passenger accommodations of the boat be increased so that she will carry at least one hundred people first class. The new ships will be the finest of their kind and quite up to the American-Hawaiian standard.

POST'S LOCATION DEPENDS ON WATER

Water is the burning question with the board empowered to locate the brigade post at Lihoua. Where water can be developed, there the post will be.

The cavalry cantonment has plenty of water for its immediate requirements, but it is stated that the supply available is entirely inadequate to the demands of a brigade post, according to those who have investigated. In addition to household needs, the board has to take into consideration the question of water for gardening purposes, and altogether it is said that an immensely increased volume of water will have to be assured before a location for the permanent post can be decided upon.

On the Koolau side of the reservation there is ample water available for all needs, but, on the other hand, the character of the ground is hardly as well suited to the demands of a brigade post as the site of a cavalry cantonment.

The board is still considering the matter, and a report will probably be made to Washington before long.

Though the source of the water supply for the cantonment is considerably higher than the point of

Attorney Lightfoot Says Japanese Will Not Tolerate Being Ordered Out Of Quarters---Planters' Trustees Will Meet This Afternoon---Demands ---Quiet At Honolulu Plantation---Contributions

The Japanese laborers of Oahu plantation struck this morning and sent their demands promptly to Manager Bull. There is not a unanimous sentiment among the laborers, those on the peninsula remaining at work.

The Planters' Association will hold a meeting this afternoon at which the position of that organization will be defined. The response to the strikers will undoubtedly be that no demands coming from the high-wage association agitators can be considered and the whole sugar industry will stand firm and act as a unit.

A large number of men have been engaged to carry on the necessary work at the plantation where the strike is on. In town the agitators are making collections for a fund to feed the strikers.

Attorney Lightfoot addressed a high-wage meeting last night and told the Japanese they are following the right course.

The Japanese labor strike situation further developed this morning when the larger part of the laborers at Waipahu went out on strike and presented a copy of their demands to Manager Bull. These demands are almost identical with those made on Honolulu Plantation and were evidently prepared by the same agent.

The laborers in dealing with Mr. Bull were very "risky," demanding in positive tones that they wished to see him and he should "come here."

A protracted meeting was held by the plantation laborers at Waipahu last night. It was a very wordy affair and it is apparent that the sentiment among the laborers is not unanimous. Those who have contracts that will be wiped out are particularly opposed to the strike and practically go into it from intimidation.

The work of intimidation is still going on at Honolulu Plantation.

Demand of Laborers.

The demands of the Oahu plantation Japanese follow:

Waipahu, May 12, 1909.
(Continued on Page 6)

DR. COFER HEAD OF DIVISION

Dr. L. E. Cofer, so well and favorably known in this city through his connection with the United States Marine Hospital Service, was on April 22 appointed Assistant Surgeon General of the United States Marine Hospital Service with headquarters in Washington. Dr. Cofer in his new position has the direction of the division of domestic, foreign and insular quarantine. This places him in charge of the official direction of all Federal work of this port and in this Territory. His intimate knowledge of the situation in Honolulu will be of the greatest benefit to the proper upbuilding of the important quarantine work here for the protection of the Pacific Coast. The appointment is a mark of confidence in Dr. Cofer and will be most gratifying to his many friends in this city.

Secretary Hawaii's Celebrates Birthday Share Not Decided

Ernest A. Mott-Smith, Secretary of the Territory and President of the Board of Health, is 36 years old today. Anyone who might happen into his office in the Capitol would know that some feast day or festival was being celebrated, for the place looks like a florist's shop. There are roses and carnations everywhere. The desk was heaped with them when Mr. Mott-Smith first came in, and they kept arriving all morning. Mr. Mott-Smith evidently has a few friends in Honolulu.

The President of the Board of Health celebrated his birthday by working as hard as usual, and the Secretary of the Territory is following the same course this afternoon. In fact, it appears that Mr. Mott-Smith has acquired the habit of working and can't stop—not even if he is 36 years old today.

Mutineers Suffer Death. Demand \$2 A Day

On July 1, a considerable sum of money, appropriated by Congress for the construction of lighthouses, will become available. How much of this money will come to Hawaii is yet undecided, however, the appropriation having been made in a lump sum and the apportionment not having been made as yet.

All of the money for fortification work became available on the date of appropriation, so that July 1 will not see any increase in the amount on hand for that purpose.

Mutineers Suffer Death.
CONSTANTINOPLE, May 12.—Twenty-four mutineers of the army were executed today.

The Hawaiians who were until recently employed by the County at Waikane, under Paole, the road supervisor of Koolanipoko, went on strike yesterday. They were ordered to work repairing the Waikane bridge, at the rate of \$1.50 a day. They went on strike and demanded \$2 a day.

Paole is in town today, consulting with the Mayor. Mayor Fern may go down to speak to the men some time tomorrow.

Only Tried To Kidnap

SAN FRANCISCO, May 12.—Attorney Luther Brown was today acquitted by a jury of kidnapping Fremont Older of the Bulletin.

Waikiki Business Settled

Both the Secretary of War and the United States Attorney - General have approved the condemnation proceedings in re the Waikiki swamps reclamation project. Major E. Evelyn Winslow, C. E., United States engineer here, received a cable from Washington this morning to that effect.

This clears the way toward the commencement of operations in the reclamation work. There is considerable preliminary work to be done before actual construction can start, but the approval of the condemnation proceedings marks a long step forward.

The money needed for the work has already been appropriated and is in Major Winslow's hands, so there are no further obstacles in the way of the undertaking.

Roosevelt Gets Cubs

NAIBORI, East Africa, May 12.—Col. Roosevelt today killed a leopard and captured the cubs.

Trust Men Make Plea

NEW YORK, May 12.—The six employees of the American Sugar Refining Company indicted for defrauding the government by false weighing of sugar imports were arraigned this morning in the Federal Court. They all pleaded not guilty.
